

## People for Prairies 2022 Speaker

### Land Development

#### **CHRIS HAMILTON**

*Registered Environmental Manager/Certified Wildlife Biologist; Associate Principal; Water, Energy & Environmental Manager*

Chris Hamilton is an associate principal and the manager of the water, energy & environmental group at Peloton where he oversees a team of engineers, hydrologists, environmental scientists, and biologists who provide water resource, environmental, and regulatory compliance services throughout Texas. His skills include oil and gas entitlements in urban areas, pipeline route analysis, environmental assessments for real estate transactions, surface water permits, mitigation banks, natural resource surveys, wetland delineations, and tree surveys/urban forestry plans.

Chris has extensive experience with commercial real estate transactions, including environmental due diligence, environmental reviews, state and federal regulatory programs, and field investigations. His team regularly assists landowners and developers in evaluating their properties for development potential based on known environmental and floodplain constraints and guiding them through today's complicated and ever-changing regulatory atmosphere.

Chris is also an ISA Certified Arborist, Certified Stormwater Inspector, Qualified Environmental Professional under ASTM Practice E1527-21, and he meets the FAA requirements for performing wildlife hazard assessments at airports. In addition, he is an officer of the Fort Worth Chapter of the Society of Texas Environmental Professionals and a member of the Greater Fort Worth Real Estate Council, Texas Chapter of the Wildlife Society, Texas Wildlife Association, and the Texas Chapter of the International Society of Arboriculture.
